

A quiet trend is emerging and no one is talking about it—yet.

Middle-Aged Women and Their Rise In Power

Key years of power: 2024 – 2044
Preparation phase: 2004 – 2024

Every 20 years brings about a major shift in **Feng Shui energies** that has powerful influences upon people and planetary trends. Deeper aspects of these 20-year cycles are described in ancient teachings, and in the *I Ching*, also called the *Book of Changes*.

In reality, these shifts in life force **commence and can be felt during the 20 years prior** to reaching their most concentrated form—a *period of preparation*.

- **We are currently in Period 8**, represented by young males and masculinity. We have seen and experienced the rise of terrorists, gangs, young warriors, young tech stars, gamers, and ADHD.
- **We will enter Period 9 in 2024**, represented by the “middle daughter” and middle-aged women. Energies will shift to the feminine, and middle-aged women will be boosted into power.

“**Knowing what new period is coming will help us prepare to take advantage of the energies when they reach full power and strength.**”
