

# How Numbers Direct Your Life

An Afternoon Workshop That's a Two Part Winner!

with Gail Minoque, best selling author and Master  
Pythagorean Numerologist

**Sunday, September 13**

1–4 pm \$65

Spectrum Center  
4100 Westheimer, Suite 233  
Houston, TX 77027

## Part I

**Discover how your name and numbers direct your life.**

- Your birth name and date hold essential information that can benefit you now.
- Letters and numbers hold secrets to your innate abilities, power and timing—even your license plate and house/office address
- How to use your own blueprint in today's marketplace

## Part II

**A quiet trend is emerging—The Rise in Power of Middle-Aged Women.**

This applies to women ages 30–75 and anyone who believes her time of power has passed her by. Over the next 30 years middle-aged women will be arriving on the scene to replace worn-out leaders who need to move on. They will bring wisdom and leadership qualities that our world sorely needs!

- Learn about this trend and take advantage of the timing.
- Learn what women should start and stop doing NOW to best position themselves
- Learn what economic and social changes will take place—they are big!
- Learn the source of this information and how these important cycles are created.

**Both men and women are welcome in this 2-part workshop!**

**Gail Minogue** assists individuals and organizations navigate the dynamics of change and become master builders of their futures, relationships, and successes. She provides clients with remarkable insights through a unique combination of trends analysis and forecasting, ancient and contemporary cyclical data, Pythagorean numerology, plus the wisdom gained from her experience in business markets and the intensive study and use of intuitive spiritual systems.

Gail is a Los Angeles-based professional who reveals the symbolic relationship of numbers to our life experiences. Her specialty is integrating real world experiences with holistic inner teachings. She is a licensed commodities broker and has studied and utilized the ancient sciences of numbers and patterns for 25 years.
